

*When it comes to vanguard design, thinking 'out of the box' is essential. Just ask Marco Braghioli from Prestige Architects. By Stephen Penn*

# space INNOVATORS

Tastes may change, but one thing that never goes out of fashion is quality design. Whether it be a turn-key residential home or a luxury holiday getaway, Prestige Architects are one company at the forefront of creating beautiful and innovative living environments.

Founded by Milanese architect Marco Braghioli, this London-based architectural practice, specialises in high-end, boutique residential projects. Renowned for inspired creativity and design excellence, Prestige has garnered a number of prestigious accolades including the Corporate LiveWire Awards' category 'Best in Residential Architecture Services – Europe,' 2017.

An example of the creative output that has helped secure such a commendation is the recent redevelopment of a property in Knightsbridge, a mansard and basement-with-pool extension of a pre-existing Grade II, seven storeys house in exclusive St. James, facing the park.

Marco and his team's experience working on residential commissions both in the UK and abroad, means the practice

can bring a unique blend of Italian design combined with quality British delivery every time.

"Our passion is to turn a client's vision into reality," says Marco. "We invariably work with individuals who like to add their personal input into the creative process, which helps develop a sense of excitement around the design and build of the project. "Many of our clients come back time and time again, having enjoyed the creative journey we've shared together. It's great to connect and build on relationships in that way."

Prestige's portfolio mix of traditional and contemporary styles has also secured the company a spot as just one of 14 projects featured in the much-coveted book 'The World's Most Glamorous Homes 2018.'

And with this stellar reputation, Marco and his team are often the first port of call for clients when looking to take on additional projects.

"We're no stranger to repeat business with follow-up projects across the globe," enthuses Marco. "Recent commissions include a holiday chalet in Switzerland, a penthouse in Montecarlo, and summer houses in Greece and Italy. We've also recently been shortlisted for a house refurbishment in the States, and a luxury villa development in Zanzibar. As they say – variety is the spice of life and nowhere is this more relevant than in the world of design."
